

Precision Pinch Gauges and Hand Dynamometers

Sales, Repair and Calibration Services

B&L Engineering manufactures precision instruments for accurately measuring pinch and grip strength. Used by physicians and therapists in clinics and rehabilitation centers worldwide, B&L Engineering Pinch Gauges and Hand Dynamometers come with an industry-best Two-Year Warranty, are legally CE Marked and competitively priced. In addition, B&L Engineering is the only manufacturer that repairs and calibrates other brands of pinch gauges and hand dynamometers.
